

# Professionel Rengøring ApS

## Cleaning plan of regular cleaning

Here is the cleaning plan for regular cleaning:

### ROOMS:

Clean all free and accessible horizontal surfaces (if there are many particles on it, the cleaner wipes around them)

Dust off computers and screens, etc. (We do not use any chemicals on it)

Remove spots on doors, door frames and light switches.

Vacuum and wash the floor

Remove spiderwebs.

Dust off all panels in the whole house

### KITCHEN:

Clean/descale the sink and faucet

Clean tables and chairs.

Clean any other free and accessible horizontal surface.

Clean cupboards from the outside

Remove spots on doors, door frames and light switches.

Vacuum and wash the floor.

### TOILET:

Clean/descale the toilet on the in- and outside.

Clean/descale the sink, faucet and mirror.

Clean all free and accessible horizontal surfaces.

Clean any other sanitary installations.

Remove spots around the sink, toilet, etc.

Remove spots on the door, door frame and light switch.

Vacuum and wash the floor.

All cleaning takes place up to ca. 190 cm in height. All of the materials are provided by our company, most of them are eco-friendly products. Our staff use different colored rags for the kitchen, the bathroom and rooms because of hygiene reasons.

We do disinfection with special material on all of doorhandles, lightswitches, etc.
